Hilary Sherman
North Carolina Economic Development Representative for EDA
Economic Development Administration
U.S. Department of Commerce

Mrs. Sherman,

On behalf of the Town Council of Edenton, we support the Town of Hertford's application for funding through the U.S. Economic Development Administration Public Works Program for development of a new electric transmission delivery point that will support industries locating in the Perquimans Marine Industrial Park.

The proposed substation will provide the infrastructure necessary to support continued growth while creating additional capacity for future industrial development. Investments of this scale strengthen the regional economy, expand employment opportunities for area residents, and enhance our communities' competitiveness in attracting and retaining manufacturing employers.

Economic development does not stop at county lines. The success of one community contributes to the strength and prosperity of the broader region. We believe this project will generate benefits that extend beyond Perquimans County through increased investment, job opportunities, and economic activity throughout northeastern North Carolina.

For these reasons, the Town of Edenton supports the Town of Hertford's application and encourages favorable consideration of this important infrastructure project.

Sincerely,

Mayor

W. Hackney High Jr.,

EDENTON ELECTRIC DEPARTMENT

TOWN OF EDENTON

P.O. BOX 300

EDENTON, NORTH CAROLINA 27932

(252) 482-4414

Mayor and Council,

We are presenting this memo to request approval to purchase approximately 14.20 acres, a portion of the property located at 251 Yeopim Road (off Old Hertford Road), for the future home of the Town's Electric Department.

As many of you know, our current facility is located in the middle of a residential neighborhood. Over the years, the department has continued to grow, and we've simply outgrown our current location. Between our trucks, equipment, material storage, and daily operations, we need more room to operate efficiently and continue providing reliable service to our customers.

Purchasing this property gives the Town the opportunity to begin planning for a new Electric Department facility with adequate space for our crews, equipment, inventory, and future growth. Relocating the department will also move our operations out of the residential area, creating a better long-term location for both the department and the surrounding neighborhood.

The purchase agreement has been prepared by the Town Attorney and is included for your review. We respectfully request Council's approval of the property purchase and authorization for the Mayor and Town Manager to execute the Purchase and Sale Agreement and any other documents necessary to complete the transaction.

Thank you for your consideration.

An Equal Opportunity Employer
